RIN-605-84

Dear Mr. Altman:

This is in response to your Freedom of Information Act request received October 31, 1984, in which you asked for all information concerning Inmont Corporation's facilities in Cincinnati, Ohio or Greenville, Ohio.

Our records indicate that there are four Inmont facilities located in Cincinnati, Ohio or Greenville, Ohio:

OHD074727595  
4710 Madison Road  
Cincinnati, Ohio 45227

OHD0004236816  
1720 - 54 Dana Avenue  
Cincinnati, Ohio 45207

OHD004236873

Please find materials which have been enclosed in response to your request (List 1). The United States Environmental Protection Agency does not maintain recent inspection or compliance records on Inmont since the State of Ohio received interim authorization to perform their own inspections on July 15, 1983. Therefore, for more information, you may wish to contact the State directly at the address listed below.

Ohio Environmental Protection Agency  
Division of Hazardous Materials Management  
Martha Gibbons, RCRA Administrator  
361 East Broad Street

Additional documents do exist, but are being withheld (List 2) under 5 U.S.C. Section 552(b)(5) and (7) because they are enforcement sensitive, and therefore, are exempt under the Freedom of Information Act. Therefore, your request for the documents is being partially denied.

If you wish to appeal this initial denial, you may address such an appeal in writing to, Freedom of Information Act Officer, A-101, United States Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, within 30 days of receipt of this negative determination. Please include the RIN number and the identity of the official (Mr. Valdas V. Adamkus, Regional Administrator, Region V) making the denial in your appeal.

Enclosed is a Bill for Collection on which the fees for this request have been itemized. Please return the top portion of the billing form with your check or money order in the amount of \$66.00, payable to the United States Environmental Protection Agency, and forward your remittance to the address listed on the billing form. 1. Airmatic Allied, Inc., 185 Park Dr., Wilmington, Ohio
2. Inmont Corporation, 1720 Dana Ave., Cincinnati, Ohio
3. Carboline Company, 125 Fairgrounds Rd., Xenia, Ohio
4. GMC-Fisher Body, Hamilton Plant, 4400 Dixie Hwy., Fairfield, Ohio
5. GMC-Delco Products Division, 2000 Forrer Blvd., Dayton, Ohio
6. Fram Corporation, P.O. Box 100, Greenville Plant, Greenville, Ohio
7. Procter & Gamble Company, Ivorydale Plant, 5201 Spring Grove Ave., Cincinnati, Ohio
8. Inmont Corporation, State Road 571 East, Greenville, Ohio
9. Radium Petroleum Company, dba Keenan Oil Company, 2350 Seymour Ave., Cincinnati, Ohio

These facilities were storing waste considered hazardous under Federal law. This action will change the status of these facilities from storage facilities storing for more than 90 days to generators storing for fewer than 90 days (per 40 CFR 262.34). The status change for these facilities was effected by removing all hazardous waste stored for longer than 90 days, and by limiting the present accumulation period to fewer than 90 days.

The certifications of change in status were submitted to qualify for generator only status under the Resource Conservation and Recovery Act of 1976, as amended. U.S. EPA requires such certifications when facilities request a change in status from storage facilities to generators.

The certifications and related background materials are available to the public at U.S. EPA Waste Management Branch, 230 S. Dearborn, 13th Floor, Chicago, Illinois, (312) 886-7450, from 8:30 a.m. to 4:30 p.m. Monday through Friday. RE: Interim Status Acknowledgement      USEPA ID No. OHD004236816  
FACILITY NAME: Inmont Corp.

Dear Mr. Rasp:

This is to acknowledge that the U.S. Environmental Protection Agency (USEPA) has completed processing your Part A Hazardous Waste Permit Application. It is the opinion of this office that the information submitted is complete and that you, as an owner or operator of a hazardous waste management facility, have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. However, should USEPA obtain information which indicates that your application was incomplete or inaccurate, you may be requested to provide further documentation of your claim for Interim Status. Our opinion will be reevaluated on the basis of this information.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265, or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The printout enclosed with this letter identifies the limit(s) of the process design capacities your facility may use during the interim status period. This information was obtained from your Part A Permit application. If you wish to handle new wastes, to change processes, to increase the design capacity of existing processes, or to change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

As stated in the first paragraph of this letter, you have met the requirements of 40 CFR Part 122.23; your facility may operate under interim status until such time as a permit is issued or denied. This will be preceded by a request from this office or the State (if authorized) for Part B of your application. Please contact Arthur Kawatachi of my staff at (312) 886-7449, if you have any questions concerning this letter or the enclosure.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

RE: Withdrawal of Part A  
FACILITY NAME: Inmont Corporation  
U.S. EPA ID #: OHD 004-236-816

Dear Mr. Heitz:

This Agency has been advised by the Ohio Environmental Protection Agency (Ohio EPA) that the referenced facility is no longer operating as a storage facility under Federal rules. The facility's current status under the Resource Conservation and Recovery Act (RCRA) is that of a generator storing less than 90 days. This letter acknowledges your change in status.

Should you decide in the future to initiate storage of hazardous wastes for greater than 90 days, and such storage is consistent with the original Part A application, you must resubmit a Part A application within 30 days of such initiation.

Should you propose to initiate storage of hazardous wastes in a manner inconsistent with the original Part A application, or to initiate the treatment or disposal of hazardous wastes, you must contact our office and the Ohio EPA at least ten days prior to such initiation. Based on the specifics of the proposed changes, we will advise you whether actual issuance of a permit is a prerequisite for such changes, or whether submittal of Part A and B of your application is sufficient. Failure to resubmit a Part A application, or to contact our office as mentioned above, would subject you to enforcement action. RCRA provides for civil penalties up to \$25,000 per violation.

If you have questions, please contact Rebecca Strom of my staff, at (312) 886-6194, for assistance.

Dear Mr. Crepeau:

The Inmont facility at the above referenced address originally submitted a Part A application as a TSDF as a protective filing. This facility has been operating strictly as a generator since implementation of the hazardous waste regulations and would like to amend the file to reflect this change.

This change will not entail steps outlined in the closure plan; it will simply be a change of status from TSDF to generator.

Inmont requested the USEPA to reclassify this facility to generator status in a letter sent to them April 5, 1983. A copy of this letter was sent to the Ohio EPA in Columbus to the attention of Mr. Paul Flanigan.

I certify under penalty of law that I have personally examined, and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Thank you for your assistance in this matter.

Re: OHD 004 236 816 PA, G, TSD, PASI  
Inmont Corporation

Gentlemen:

In November, 1982 this facility received a request for submittal of a Part B permit application. It has now been determined that it is unnecessary for this location to become a permitted on-site storage facility as suggested in the filing of our Part A interim status permit application.

This Part A application was filed in November, 1982 as a protective filing to insure time to determine if we could manage our on-site generated wastes within the 90 day rule. We have now concluded that hazardous wastes generated at this location can, in fact, be managed under the 90 day rule. We, therefore, request withdrawal of our original Part A application. Our status as a generator of hazardous wastes will not change and we will continue to comply with all applicable sections of 40CFR Part 262.

We will continue to comply with the interim status requirements as an on-site storage facility until a change in status is acknowledged by your office.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine or imprisonment.

Sincerely,

RE: OHD004236816  
Inmont Corporation

Cincinnati, Ohio 45207

Dear Mr. Rasp:

By now you should have received an acknowledgement of our receipt of the Part A permit application material for the above-referenced hazardous waste facility under the Resource Conservation and Recovery Act (RCRA) permit program.

Accordingly, this letter constitutes the next step in the formal process leading toward issuance or denial of an RCRA permit. Under the authority of 40 CFR 122.22, this is a formal request for submittal of Part B of the permit application for the above-referenced facility.

Enclosed is a copy of 40 CFR 122.25 which lists the items required for submitting the Part B permit application for the facility. The Part B application must be submitted in quadruplicate and postmarked no later than May 16, 1983. Please uniquely number each page of the application including all attachments (maps, specifications, etc.). A certification statement identical to one stated in 40 CFR 122.6(d) must accompany the application and all additional submittals. Send your application to the following address:

RCRA ACTIVITIES  
Part B Permit Application  
U.S. EPA, Region V  
P.O. Box A3587  
Chicago, Illinois 60690-3587

We are committed to conducting the RCRA permit process as efficiently as possible. Consequently I suggest you contact Mr. Charles B. Slaustas of my staff, at (312) 353-2474, as you begin preparing your application. Mr. Slaustas will be available to discuss specific needs of your application or to meet with you in Chicago. These efforts are intended to generate complete applications, without requiring any information beyond that which is necessary to make RCRA permit decisions.

Failure to furnish the complete Part B permit application by the above date, and to provide in full all required information, is grounds for termination of interim status under 40 CFR 122.22.

Information you submit in the Part B permit application can be disclosed to the public, according to the Freedom of Information Act and U.S. Environmental Protection Agency (U.S. EPA) Freedom of Information regulations. If you wish, however, you may assert a claim of business confidentiality by printing the word "Confidential" on each page of the application which you believe contains confidential business information. U.S. EPA will review business confidentiality claims under regulations at 40 CFR Part 2, and will later request substantiation of any claims. Please review these rules carefully before making a claim.

If you claim parts of the application as confidential, please provide us with a public information copy of the application. The public information copy must be identical to the full application with the exclusion of the confidential information.

We have also enclosed a copy of 40 CFR Part 264 which includes technical standards for the operation of treatment and storage facilities. These standards will become applicable upon issuance of an RCRA permit to your facility by U.S. EPA.

We will coordinate review of the application with the Ohio Environmental Protection Agency and the Hazardous Waste Facility Approval Board, and if the application is acceptable, will strive for a simultaneous issuance of Federal and State hazardous waste facility permits. It is possible that during the processing of the application, the State hazardous waste program may become authorized to issue RCRA permits for your type of facility. In that case, direct Federal processing will cease, and the State in lieu of U.S. EPA will make the final determination on your application.

We look forward to receiving your Part B permit application.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

**III. PROCESSES (continued)**

**C. SPACE FOR ADDITIONAL PROCESS CODES OR FOR DESCRIBING OTHER PROCESSES (code "T04"). FOR EACH PROCESS ENTERED HERE INCLUDE DESIGN CAPACITY.**

**IV. DESCRIPTION OF HAZARDOUS WASTES**

**A. EPA HAZARDOUS WASTE NUMBER** — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.

**B. ESTIMATED ANNUAL QUANTITY** — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

**C. UNIT OF MEASURE** — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE                      CODE  
POUNDS . . . . . P  
TONS . . . . . T

METRIC UNIT OF MEASURE                      CODE  
KILOGRAMS . . . . . K  
METRIC TONS . . . . . M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

**D. PROCESSES****1. PROCESS CODES:**

**For listed hazardous waste:** For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

**For non-listed hazardous wastes:** For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

**Note:** Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

**2. PROCESS DESCRIPTION:** If a code is not listed for a process that will be used, describe the process in the space provided on the form.

**NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER** — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
2. In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.
3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

**EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below)** — A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

Dear Mr. Leshyn:

I am in receipt of your January 25, 1991, letter to Carolyn Reiersen of my staff in which you requested that Ohio EPA withdraw its request for a closure plan and financial assurance and liability coverage documentation for BASF Corporation's (BASF) Cincinnati facility.

Given the effects of the July 19, 1990, explosion at the facility and BASF's expressed willingness to proceed with a voluntary cleanup of the facility, Ohio EPA is willing to withdraw its request at this time for abatement of the violations outstanding from Pat Willoughby's inspections of February 27 and March 30, 1990, and Carolyn Reiersen's January 17, 1991, record review. This withdrawal is contingent upon BASF's adequate remediation of the drum pad, containment pit and mix tank at the facility. The violations will remain outstanding until the cleanup of the above units is completed to levels acceptable to Ohio EPA. Ohio EPA expressly reserves its right to unilaterally rescind this withdrawal at any time and to take appropriate enforcement action.

Please contact Keith Dimoff of my staff at (614) 644-2934 if you have any questions regarding this letter. Pat Willoughby of the Southwest District Office may be contacted at (513) 285-6357 regarding other hazardous waste compliance issues and the ongoing cleanup at the facility, including acceptable cleanup levels.

Sincerely,

Pamela S. Allen, Manager  
Hazardous Waste Enforcement Section

To the Board of Directors  
United Technologies Corporation

We have examined the consolidated financial statements of United Technologies Corporation and subsidiaries (the "Corporation") as of December 31, 1982 and for the year then ended and have issued our report thereon dated January 26, 1983. We have not examined any financial statements of the Corporation as of any date or for any period subsequent to December 31, 1982.

Reference is made to the letters dated March 11, 1983 to various states and three Regional Administrators from Mr. Stillman B. Brown, Executive Vice President - Finance and Administration and Chief Financial Officer of United Technologies Corporation (the "Letters"). We have compared the amounts listed below and included in the Letters to the corresponding amounts included in the aforementioned consolidated financial statements and found such amounts to be in agreement:

<u>Description</u>	<u>Amount (000's)</u>
Tangible net worth at December 31, 1982	\$ 2,929,147 (1)
Total assets in U.S. at December 31, 1982	5,789,502 (2)

(1) Shareowners' Equity, \$3,481,790 less Deferred Charges, \$552,643.

(2) United States operations, \$5,641,215 plus General corporate assets and other, \$148,287.

Because the foregoing procedure does not constitute an examination made in accordance with generally accepted auditing standards, we do not express an opinion on the amounts listed above. In connection with this procedure, no matters came to our attention that caused us to believe that the amounts should be adjusted.

To the Board of Directors  
United Technologies Corporation - 2 -

March 14, 1983

We performed no audit or other procedures with respect to the amount shown in the Letters for closure and post-closure cost estimates. Accordingly, we do not express an opinion or any other form of assurance on such amount.

It is understood that this report is solely for your information and assistance in complying with the requirements of the Environmental Protection Agency - Subpart H of 40 CFR, Parts 264 and 265, and should not be used for any other purpose.

Yours very truly,

Dear Mr. Schneidmeyer:

Enclosed is a copy of the amendments to the Indiana Hazardous Waste Rules which incorporate the April 7 and April 16, 1982, federal financial assurance standards. These rules are final and will take effect as soon as approved by the governor, which we expect in the next 45 days.

The forms you will be interested in begin on page 2268. If you file on these forms we will be able to dispense with the variance, and your filing will be complete until the update for March of 1984.

The failure of the earlier mailing is still a mystery. I have noted in the record that you anticipate a delay in filing before the March 31, 1983 deadline because of not receiving the Indiana amendments.

If you have any further questions, please let me know (317/633-0770).

Very truly yours,

April 1, 1985

Richard Heitz  
Vice President  
Inmont Corporation  
1720 Dana Ave.  
Cincinnati, OH 45207

Dear Mr. Heitz:

According to our records, your Ohio Hazardous Waste Installation & Operation Permit has expired. Prior to the expiration of that permit, you had informed and certified to the Ohio EPA that you no longer conducted hazardous waste activity for which a permit was required.

Therefore, this letter is to inform you that, based on the information you had submitted and an investigation by Agency staff, you will maintain the status of a generator only with less than 90 day storage.

You should continue to use the identification number assigned to you by the U.S. EPA for purposes of compliance with the Ohio EPA manifest, recordkeeping and reporting requirements for generators and transporters of hazardous waste as appropriate.

Should you have any questions concerning your current status, please contact the appropriate Ohio EPA District Office (see enclosed list).

Very truly yours,

*PB CBS*

Gentlemen:

In November, 1982 this facility received a request for submittal of a Part B permit application. It has now been determined that it is unnecessary for this location to become a permitted on-site storage facility as suggested in the filing of our Part A interim status permit application.

This Part A application was filed in November, 1982 as a protective filing to insure time to determine if we could manage our on-site generated wastes within the 90 day rule. We have now concluded that hazardous wastes generated at this location can, in fact, be managed under the 90 day rule. We, therefore, request withdrawal of our original Part A application. Our status as a generator of hazardous wastes will not change and we will continue to comply with all applicable sections of 40CFR Part 262.

We will continue to comply with the interim status requirements as an on-site storage facility until a change in status is acknowledged by your office.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine or imprisonment.

Sincerely,

INMONT CORPORATION

Dear Mr. Rasp:

Recently, we requested you to submit a Part B application for the above-referenced hazardous waste facility under the Resource Conservation and Recovery Act as amended (RCRA) permit program.

Enclosed for your use in completing your application is a permit applicant's guidance manual. In addition, an example of the checklist which will be used to evaluate your application for completeness, has been enclosed. In an attempt to coordinate the review of your application with the Ohio Environmental Protection Agency (OEPA), we urge you to submit three copies of your Part B to OEPA at the same time it is submitted to this Agency. The mailing address for OEPA is:
